Citizens School of Nursing Financial Aid Office worked with the guidance that came out of the US Department of Education in determining a fair and equitable distribution. We targeted issuing the funds to our Class of 2020 as well as the Class of 2021 in a timely fashion so the nursing students could use the funding to assist with their food, housing, technology, health care, and child care expenses that all of them experienced since March 13, 2020. Each of our nursing students were impacted so we chose not to delay getting the CARES Act funding to the nursing students by requiring them to complete a separate application.

- Any instructions, directions, or guidance provided by the institution to students concerning the Emergency Financial Aid Grants.

Citizens School of Nursing Financial Aid Office has sent multiple emails informing the nursing students regarding the CARES Act funding and expectations. We asked our nursing students to provide us with an updated address so we could mail the check if they were not able to visit the school during the four time slots when we followed social distancing and distributed the checks on May 19, 20 and 21, 2020. We felt this was the quickest way to get the money to our nursing students.
